

Conveyor Belt Group

CONTIFLEX® EP
Textile Conveyor Belts
for a Wide Range
of Conveying Tasks

CONTIFLEX® textile conveyor belts fulfil a wide variety of transport tasks in all types of industry. In addition to a range of belts for normal bulk goods, various special types are available for conveying hot goods, for the transport of goods containing oil and grease, for steep-incline conveying and with special reinforcing materials for particular applications.

Modern production

techniques and systematic quality assurance

CONTIFLEX® EP conveyor belts are made by the latest production techniques, using high-grade materials and environment friendly raw materials. In-house-developed processes and staff skills are a further guarantee for the constantly high standard of our conveyor belts.

This well-developed sense of quality is reflected in an efficient quality assurance programme at all stages of the

project, from initial inquiry through to delivery, in accordance with stringent ISO 9001 guidelines. International approval as a supplier to major customers confirms the high quality of products, operations and processes.

Service partners

ContiTech Transportbandsysteme GmbH provides a customer-oriented service worldwide in consultancy and planning for conveyors through to installation, start-up and servicing during operation. A team of applications engineers is on hand to make design calculations with special computer programs and to give comprehensive on-site advice. They are backed by the experience gained in the use of our conveyor belts throughout the world.

Service-tested in a wide range of applications

ContiTech Transportbandsysteme GmbH supplies a range of CONTIFLEX® textile conveyor belts with epoxy plies as 2, 3, 4 and 5-ply belts of various designs and dimensions. They are of a practical design, equipped with tailor-made covers and meet the highest requirements in many different sectors, such as:

- ▶ Mining
- ▶ Iron and steel industry
- ▶ Construction industry
- ▶ Non-metallic minerals
- ▶ Gravel quarrying
- ▶ Cement industry
- ▶ Cargo handling facilities
- ▶ Power stations
